BRIDGE DIGITAL MENU

Whether you are running a restaurant, cafe, hotel, bar or take away; Bridge Digital Menu can turn your existing standard menu into an interactive digital version. Simply load your printed paper menu onto our platform and Bridge Digital Menu will convert it into an engaging digital format for you

Bridge Digital Menu is a cloud ready digital restaurant menu solution that allows you to create, manage and deliver your dynamic menu to your customers. With a beautiful & simple interface, it's quicker than ever to keep your menu up-to-date and let your customers browse and order from it whenever they like.

Bridge Digital Menu gives you many choices to deploy your menu, you can display your menu on a wall mounted smart TV, on a tablet or iPad, on your own website, and even on the customer's own mobile. You can also share your menu with customers by sending them a link where they can browse your menu on their mobile, laptop and desktop
